Re: Revision of Chemical Processors, Inc. Pier 91 Facility
Part B Permit Application

Dear Ms. Sikorski:

Please find enclosed revisions to the Pier 91 Facility Part B Permit Application. These revisions are not in response to an NOD from Ecology or the EPA. The revisions consist of two signature pages for Owner Certification from the Port of Seattle which was received on December 19, 1991.

In addition, enclosed are the cover letter to the information packet received from the Port of Seattle along with the documentation explaining the change in verbiage of the two certification statements initiated by Ecology and the EPA.

Two sets of revisions are being supplied to the EPA for copies 3 and 4 of the Permit Application. Two copies of the Permit Application revisions have also been sent to Ecology. Please place these revisions in your copies of the Permit Application as indicated on the instruction sheets provided.

I can be reached at 223-0500 if you have any questions.

Sincerely,

Gary D. Kollman
Environmental Scientist
